

KLR 102C/ 105C CONNECTIONS

- V+ Positive voltage output for Soundline and lights
- 8 Number 8 button output, 5v logic level.
- 9 Number 9 button output, 5v logic level.
- Gnd Receiver ground
- HL Headlight output, switched to Gnd in forward direction.
- DL Ditchlight output, switched to Gnd in forward direction.
- RL Rear light output, switched to Gnd in reverse.
- #7 Number 7 button output, open collector.
- SL Connection to Soundline.
- T1 **One input voltage pair, 12-18v d.c., 18V MAX**
- T2 **One input voltage pair, 12-18v d.c., 18V MAX**
- M Connections to the motor

Input voltage may be either track or battery

Keithco, Inc

KLR 102/105 RECEIVER
